

Technical Information

Predator Motorcycle and Powersports batteries are made by one the worlds leading AGM battery manufacturers.

The Predator GYZ20L is a factory activated Absorbent Glass Mat (AGM) battery which is spill proof and maintenance free, delivering improved cranking power and superior vibration resistance.

Features & Benefits

- Improved cranking power
- Superior vibration resistance
- Factory activated
- Spill proof
- Maintenance free
- Low self discharge

Technical Specifications			
Battery Type	Absorbent Glass Mat (AGM)	Case Material / Colour	Polypropylene / Black
Nominal Voltage	12V	Plate Type	Cast
Capacity (10Hr)	18Ah	Separator Type	Glass Mat
Rated CCA	310A	Assembly Layout	RH Positive [- +]
Case Size (LxWxH)	175 x 87 x 155mm	Terminal Type	Lead
Nominal Weight	5.93kg	Factory Activated	Yes
