ABOUT

The Predator range of motorcycle and powersports batteries is one of the most comprehensive ranges available in Australia.

Made by one of the world's leading motorcycle and AGM battery manufacturers, Predator Motorcycle & Powersport batteries offer the enthusiast a truly world class battery at a value for money price.

AGM RANGE

The Predator AGM Powersport batteries are constructed with Absorbent Glass Mat technology to provide you with total maintenance-free operation.

This design will provide you with higher amp hour capacity, longer cycle-life and greater durability. The AGM and low resistance intercell connector design delivers superior strength and vibration resistance, even in the most extreme conditions.

FEATURES

- Durable ABS plastic case
- Factory activated and acid pack options available
- Excellent charge acceptance and vibration resistance
- Low self-discharge
- Non-spillable AGM technology
- Low resistance intercell connectors
- Advanced design for true maintenance-free operation

CONVENTIONAL FLOODED

The Predator conventional flooded range of Powersports batteries are designed to meet original OEM specifications for starting and amp hour capacity.

Heavy duty glass fibre & PE composite separators, improved vibration resistance and low resistance intercell connectors minimise internal resistance for maximum power. Transparent casing makes checking electrolyte levels easy and no fuss.

FEATURES

- High-quality composite of glass fibre & PE separators
- Advanced low antimony lead alloy reduces maintenance requirements
- High capacity and long life
- Good charge acceptance and vibration resistance
- Low resistance intercell connectors
- Dry charged technology

Predator X-series

X-SERIES

FEATURES

- AGM technology with high compression separator
- 100% spill-proof design
- Battery grid design increases continuous cranking capacity
- Excellent starting power, even at a low State of Charge
- Ideal for Jet-skis and American motorcycles
- High charge acceptance

The Predator X-series is built for performance; with superior starting power, high reserve capacity and long-lasting life to give you more freedom out on the open road or the open sea

The AGM design allows easy, stress-free installation and a spill-proof design; making it the smarter choice for powering your prized equipment.
